WRITING

The Heart of New York

by Matthew Inoa, 826 NYC

TYPE

Narrative
Persuasive

Dear essential worker,

I would like to take this time to thank you for the sacrifices you have made during these difficult times. Without your contributions times like these would be unimaginably worse. From doctors to even grocery workers you are the heart of New York which keeps us pumping, giving us hope that things would get better. If you're an essential worker and things are getting rough during these situations remember that superheroes also go through difficult times but at the end it just makes them stronger.
