- 1. Were you surprised by any of the identity words or phrases that you wrote down? If so, which ones?**
- 2. Which of your identities do you feel the most connect to and why?**
- 3. Which of your identities are you most curious about? Is there anything specific you'd like to know more about it?**

Your Identities

Write the identities you circled in the first column of the chart. Then, write what you love about each of those identities and what you can do with the power that identity gives you. An example is provided. Continue in your writing journal if you need more space.
