

Plant Explorers (Sess. 3): Writing Prompt

Prompt: *Using what you've learned about plants and the ones you encountered on the field trip, what type of plant would you want to be, and why?*

Consider: Would you be a loner, like a stand-alone tree? Or part of a group, like a rosebush? What would a day in the life of that plant look like? What would you think? What would you hear? What would you do?

[illegible]
