When I was bullied I didn't do anything and the bully kept doing it. I wish that I had said something and told my teacher or parents. If it ever happens again, I will stand up for myself and, if they don't stop, I will tell someone. Being bullied makes you feel sad and makes you think you did something wrong even though you didn't do anything. It makes people feel like they don't fit in. It's important to accept people because, if you don't, they will feel like they don't fit in and they won't feel good.
