With this Write for Inclusion Publishing Kit, your students now have the tools to publish two original stories about kindness, compassion, and empathy.

Publishing student writing is core to the work of [826 National](#) and its nine chapters. When students first see their writing appear in a book, something magical happens. They see a reflection of themselves and their ideas valued in something concrete. We hope that you'll have fun creating books with your students, celebrating their perspectives, and sharing their work. And, of course, please feel free to add your own creative spin on our curriculum.

Get started by downloading the kit, which includes lesson instructions, materials, and extension activity ideas.
