Dear Taylor Swift,

I know you so well

words couldn't tell.

Your sad songs make my heart drop

and your lyrics make my brain POP!

I almost went to the Eras Tour.

When I couldn't go, my heart dropped to the floor.

I'd love to see you live,

but you, with your tour, you wouldn't have time.

Taylor Swift was a great start,

Fearless has such heart,

Speak Now never made me down,

Red started your talent of your pop crown,

1989 started your pop wonderland,

Reputation proved you could make a rock band,

Lover was betrayal, even in denial,

Folklore was poetic, so beautiful,

Evermore was depressingly mournful,

Midnights makes me glad you made it,

TTPD is just so feminine-rage vibez.

Love,

Iman
